**BLOGS**

**FULLY RESPONSIVE & SECURE**

**MANAGE CATEGORIES, PRODUCTS, QUANTITIES, ETC.**

**SEPERATE PANELS FOR ADMIN, OPS AND SEO**

# WEBSITE FRONT END PAGES

Over a decade of experience, we have learned with technology and time. We grow with our clients.

## HOME

The homepage is where all the action happens on your site. It's the first thing visitors see, and it determines if an individual will browse around or say goodbye.

## ABOUT

This is a web page that allows visitors to get quickly informed about the company, product, or person behind the website.

## SERVICE

Your services page is one of the most critical pages on your website whose purpose is to not only reveal what you offer but how your company stands out from the rest.

## USER REGISTRATION

The registration page can be found on websites where users sign up and create personalized accounts.

## USER LOGIN

A login page is a web page or an entry page to a website that requires user identification and authentication, regularly performed by entering a username and password combination.

## PRODUCT

A product page is a page on a company website that showcases the product inventory a customer is able to buy. It's a page that helps customers decide what they want to buy according to different specifications like price, features, reviews, and product comparison.

# WEBSITE FRONT END PAGES

Over a decade of experience, we have learned with technology and time. We grow with our clients.

## CONTACT

Communication helps build solid relationships with your customers. You get to learn about their needs and desires as it relates to your products. Plus, it opens the door to receiving critical feedback.

## CHECKOUT

A checkout page is the page(s) related to payment and shipping/billing details on an ecommerce store. The checkout page gives customers the opportunity to enter payment details and complete their order.

## PRODUCT DETAILS

A product detail page (PDP) is a web page on an eCommerce site that presents the description of a specific product in view. The details displayed other relevant information customers may want to know before making a purchase.

## ORDER OVERVIEW

The Order Overview page is where customers can view the complete details of their order, and then pay for their order.

## SHOPPING CART

Obviously, this page is also another part of an e-commerce platform. As well as in the process of real shopping, buying things online users save the items in the cart, and on this page, they should easily find the way to complete the purchase.

## PRIVACY POLICY

A privacy policy is a document that explains how an organization handles any customer, client or employee information gathered in its operations.

# WEBSITE FRONT END PAGES

Over a decade of experience, we have learned with technology and time. We grow with our clients.
